Work Experience

Coastal Pet Products

Alliance, Ohio. Oct. 2023 - Oct. 2024.
Soft Goods Designer - Full Time

Worked on a diverse range of pet design projects, overseeing them from concept to development while ensuring deadlines were met. Developed and delivered professional presentations to communicate my design concepts effectively. Created compelling designs based on ideation, research, and product requirements, producing sketches, illustrations, visuals, and competitive analysis.

FINIS

Livermore, California. Fall 2022.
Product Development Intern

Assisted in developing innovative products in the competitive, recreational, and youth swimming space. Responsible for Rapid 3D Prototyping, including SLA Printing and FDM Printing, producing Renders with the use of Keyshot, conducting User Testing and CAD Modeling, making use of Class A Surfacing and anthropomorphic ergonomics.

Techtronic Industries

Anderson, South Carolina. Spring 2022.
Industrial Design Intern

Responsible for new brand developments in outdoor tools. Developed strategy images, rapid ideation, CFG documents, physical prototypes, a new visual brand language, rendering new products in KeyShot 10, ergonomic forms in SolidWorks.

Hasbro

Pawtucket, Rhode Island. Spring 2020.
Product Development Intern

Responsible for ideation, refinement, and creation of new Play-Doh products and compounds. Developed concept sketches, mood boards, deco sheets, concept creation, and re-search.

Education

University of Cincinnati

B.S., Industrial Design
GPA: 3.6
Class of 2023
Summa Cum Laude
Deans List Honoree

Accademia Italiana

Study Abroad
Florence, Italy
Fall 2021

Interests

Sustainability

I believe in environmental change, we must learn how to collaborate and change the way we think about products as a connected part of our world and society.

Hobbies

I am a multi-media artist who enjoys traveling, thrifting and dogs. I like to live an active lifestyle and experience nature as often as I can.
